

OSNOVE ANKETNEGA RAZISKOVANJA V UPRAVI

UČNI NAČRT PREDMETA/COURSE SYLLABUS

Predmet:	OSNOVE ANKETNEGA RAZISKOVANJA V UPRAVI
Course title:	BASIS OF SURVEY RESEARCH METHOD IN ADMINISTRATION
Članica nosilka/UL	UL FU
Member:	

Študijski programi in stopnja	Študijska smer	Letnik	Semestri	Izbirnost
Uprava, prva stopnja, visokošolski strokovni	Ni členitve (študijski program)	2. letnik, 3. letnik	1. semester	izbirni

Univerzitetna koda predmeta/University course code:	0070567
Koda učne enote na članici/UL Member course code:	0738

Predavanja /Lectures	Seminar /Seminar	Vaje /Tutorials	Klinične vaje /Clinical tutorials	Druge oblike študija /Other forms of study	Samostojno delo /Individual student work	ECTS
20				90	70	6

Nosilec predmeta/Lecturer:	Lan Umek
----------------------------	----------

Vrsta predmeta/Course type:	Izbirni/Elective
-----------------------------	------------------

Jeziki/Languages:	Predavanja/Lectures:	Angleščina, Slovenščina
	Vaje/Tutorial:	

Pogoji za vključitev v delo oz. za opravljanje študijskih obveznosti:	Prerequisites:

Vsebina:	Content (Syllabus outline):
<ol style="list-style-type: none"> 1. Kritičen vpogled v metodologijo anketnega raziskovanja 2. Anketno raziskovanje v javnem sektorju 3. Od konceptualnega modela do vprašalnika 4. Razvoj kakovostnega merilnega instrumenta in implementacija 5. Etika raziskovanja 6. Metode vzorčenja in problem odzivnosti 7. Načrtovanje in izvedba anketne raziskave 8. Urejanje in preverjanje podatkov 9. Analiza podatkov, validacija merilnega instrumenta 10. Poročanje o rezultatih anketne raziskave 11. Predstavljanje rezultatov anketne raziskave za različne publike 12. Kritična refleksija rezultatov anketne raziskave in pošteno poročanje 	<ol style="list-style-type: none"> 1. Critical insight in survey research methodology 2. Survey research in public sector 3. From a conceptual model to a questionnaire 4. How to design the quality of measurement instrument and its implementation 5. Research ethics 6. Sampling methods and response rate problem 7. Planning and proceeding survey research 8. Verification of data 9. Data analysis, validation of measurement instrument 10. Reporting the results 11. Presentation of the results for a variety of audiences 12. Critical reflexion of the survey results and ethical research reporting

Temeljna literatura in viri/Readings:

1. FDV (2017). En klik Anketa, Priročniki. Fakulteta za družbene vede. URL: <https://www.1ka.si/c/867/Prirocni/?preid=789>.
2. LEEUW, Edith Desirée de, HOX, Jop, DILLMAN, Don (2008). *International handbook of survey methodology*. L. Erlbaum Associates, New York . 549 str.
3. BICKMAN, Leonard, ROG, Debra J. (2009). *The SAGE handbook of applied social research methods*. 2nd ed. SAGE, Los Angeles. 661 str.

Cilji in kompetence:

Študent:

- opredeli problem, oblikuje raziskovalno vprašanje, pripravi in izpelje anketno raziskavo,
- uporabi informacijsko-komunikacijsko tehnologijo in statistična orodja za zbiranje, analizo in predstavitev rezultatov anketne raziskave;
- postavi hipotezo in izbere ter uporabi primerno tehniko za preverjanje hipoteze,
- primerja rezultatov opazovanj ali raziskavo s pričakovanimi, za namenom odkriti neskladnosti
- rezultate anketne raziskave kritično obravnava in jih sooči s konkretno situacijo v javnem sektorju.

Kompetence

Študent je usposobljen za

- kritično presojanje okoliščin, numeričnih podatkov, razumevanje odkritij, oblikovanje sklepov in reševanje problemov;
- uporabo IT tehnologije in statističnih pripomočkov za izpeljavo statistične raziskave in oblikovanje poročil ter predstavitev;
- zaznavanje napačnih in nepopolnih podatkov, ki jih je potrebno verificirati;
- uporabo statističnih metod za analizo podatkov in odločanje na osnovi dejstev raziskovanje in prenosa spoznanj v praks.

Objectives and competences:

Student:

- defines problem, asks survey research questions, prepares, and processes survey research,
- uses ICT and statistical tools for gathering, analysing and presenting results of survey research
- studies literature and builds research construct and questionnaire, forms a hypothesis, chooses and uses suitable hypothesis testing technique,
- compares observations or finished work to what is expected to find inconsistencies
- makes critical reflexion to survey results and relates them to the practical situation in public sector.

Competences

- Student is qualified: to examine numerical data to grasp issues, draw conclusions, and solve problems;
- to use IT equipment and statistical tools to proceed statistical research and create reports and presentation;
- to identify key facts in a range of data;
- to notice when data appear wrong or incomplete, or need verification;
- to use statistical methods for data analysis and decision-making based on facts to research and to transfer the knowledge into practice.

Predvideni študijski rezultati:

Študentje:

- razumejo pomembno vlogo študija virov kot osnove za pripravo anketne raziskave;
- razumejo odnos med konstruktom in zgradbo anketne raziskave
- so zmožni
 - pripraviti in realizirati anketno raziskavo;
 - izbrati in uporabiti ustrezne statistične tehnike za analizo podatkov anketne raziskave;
 - interpretirati rezultate statistične analize z vsebinskim pomenom
- so ozaveščeni o pomembnosti kritične refleksije rezultatov anketnih raziskav v smislu da razlikujejo le med statistično signifikantnimi vrednostmi parametrov.

Intended learning outcomes:

Students:

- understand importance of literature research as the ground of survey research design;
- understand the relationship between research construct and survey research design
- be able
 - to design and realize a survey research;
 - to identify and use appropriate statistical techniques for analysing survey research data
 - to interpret the results of statistical analysis in terms what the solution means for the problem at hand;
- develop commitment to the critical reflexion to the survey research results in terms not distinguish between non significant different values.

Metode poučevanja in učenja:

1. priprava študenta na predavanja
2. predavanje
3. e-učenje
4. problemsko učenje
5. seminarska naloga ali projektno delo

Learning and teaching methods:

1. student preparations for lectures
2. lecture
3. e-learning
4. problem based learning
5. seminar paper or project work

Načini ocenjevanja:

	Delež/Weight	Assessment:
1. pisni in/ali ustni izpit	60,00 %	1. written and/or oral exam
2. seminarska ali projektno delo in/ali ustna predstavitev dela	30,00 %	2. seminar or project work and/or oral presentation
3. naloge in aktivno sodelovanje	10,00 %	3. coursework and active class participation

Ocenjevalna lestvica:

5 - 10, pri čemer velja, da je pozitivna ocena od 6 - 10

Grading system:

5 - 10, a student passes the exam if he is graded from 6 to 10
